HORSE SALE

James R. Magowan Sells Fine Trotters.

J. Malcolm Forbes Will Succeed the Great Bingen.

Mr. James R. Magowan, of this city, on Monday sold to General Brayton Ives, of New York city, his fast 2-year-old filly, Alma Forbes, who as a yearling secured a record of 2:24 for \$5000.00 and the eleven months old filly, Bertha Forbes, for \$1000.00. Mr. Magowan has sold 23 head of colts by his premier stallion, J. Malcolm Forbes this year for the princely sum of \$18340.00, making the splended average of \$797.40.

Mr. Magowan is the only man in the world to ever own as many as nine yearlings to take standard records, among them being Frank Perry champion yearling 2:15 which sold for \$22.00, John E. Madden (1) 2:27 now known as Magowan \$2400.00, Roberta Bingen (1) 2:27 \$935.00, Princess of India (1) 2:27 \$1800.00, Todd Forbes (1) 2:29 \$2500.00, Pearl Forbes (1) 2:28 \$500.00, Alma Forbes (1) 2:24 \$5000.00, King Forbes (1) 2:29 died while being shipped to New York, J. Forbes (1) 2:27 he still owns.

J. Malcolm Forbes is the champion 5-year-old sire of the world and is the only horse in the world of any age to put five yearlings in the list in one season. In speaking of him the Lexington Herald said:

BINGEN'S SON MOST ADMIRE.

Of all the horses seen at the 1912 show the one that attracted the most attention was the deceased Bingen, 2:06. The horse's reputation as a sire, coupled with his recent sale to Mr. Look and transfer to Kentucky, caused him to be the cynosure of all eyes. This year it seems safe to say that the most admired horse at the show was his son, J. Malcolm Forbes that looks to be the logical successor to Bingen as the leading stallion of the Electioneer line. The death of his great sire drew much more attention to him than he would have received despite the fact that his ultra popular breeding and grand individuality have always attracted the most favorable attention and comment.

Install New Machinery.

The Mt. Seterling Laundry Co., have recently installed and now have in operation an American Steam Collar Pressing Machine. This is one of the latest machines made and completes a collar in one operation instead of having to be run through a machine four or five times as was formerly done. It has a capacity of 1200 to 1500 per hour. Besides doing the work more rapidly than the old machine it does it much better, and when a collar has been run through this machine it has the appearance of a new one. Messrs Tipton & Pollard, the new owners of the Mt. Seterling Laundry Co., intend to spare neither time nor money in making this one of the most up-to-date plants in the State.

Manager Wilkerson Acted Wisely in Canceling Show.

That Manager Wilkerson acted wisely in cancelling the performance of "Wine, Woman and Song" is shown by the following criticism clipped from a Winchester paper.

"The performance of 'Wine, Woman and Song' at the Opera House Monday night proved to be entirely too risque for a local audience and at the end of the first act nearly all the women left the house. Only a fair-sized audience was in attendance.

Devoid of good acting or good singing but with a plentiful supply of doubtful jokes and quips, this 'musical comedy' would have been more at home at the Buckingham than in the local play house, where it is liable to take his wife, daughter or sweetheart."

Will of J. S. Bogie, Sr., Probated Wednesday.

The will of the late James S. Bogie, Sr., was admitted to probate in the County Court last Wednesday. The instrument nominates his wife as executrix without bond. He leaves all personal property absolutely to his wife, and she is also devised the use, so long as she remains his widow, of all the land, and this provision is in the lieu of dower and distribution in his estate.

The will orders the payment of some debts he owes four of his children before any distribution is made of land, and then directs that at the death of his wife or upon her ceasing to be his widow that his land be divided among his children, who may then be living and the child, children or descendants of any who may then be dead, share and share alike.

April 11, 1913.

Hon. Rufus Hadden,
City.

My dear Sir:—

As opposing candidates for the Democratic nomination for State Senator, you and I both want as little friction within the party as possible and while I have absolutely no objection to submitting my claims to the Democracy of the entire district, it has occurred to me since it is Montgomery county's time to furnish the nominee, under the rotation agreement long observed, that it would promote party harmony and be in accord with an overwhelming sentiment in the district and especially in Bourbon and Clark counties, to submit our claims to a primary in our home county at such a time before the State Primary as you may suggest, the officers to be divided equally between us by the Democratic County Committee, or the County Board of Election Commissioners, or by Mr. Clifton Prewitt, Sr., of your church and Mr. John T. Woodford, of mine, or in such other fair manner as you may suggest, each to be entitled to a challenger and inspector in every voting booth to insure absolute fairness and the cost of such primary, (which will be much less than the legitimate cost of a canvass of the entire district,) to be born equally, the loser in such primary to withdraw as a candidate before the State Primary.

I pledge myself to do this if my fellow Democrats at home do not want me to represent them in the Senate and I feel you entertain similar views.

Awaiting your early reply, I am,

Very respectfully yours,

J. WILL CLAY.

Be it ordained by the Mayor and Board of Council of the City of Mt. Sterling, Ky.:

Section 1. That the following streets and parts of streets, intersections and crossings, in the City of Mt. Sterling, Kentucky, be improved by original construction by paving and curbing the same with Vitrified Brick or Sheet Asphalt or Bitulithic or Tarvia Macadam, and curbing and gutter suitable for the purpose, from the inner curb line to the inner curb line of curbing on the outer edge of the sidewalk thereon, but so as to include the curbing on the opposite side of the said streets and between the line thereon as follows:

North Maysville street from the north line of High street to the south line of Winn street.

Sec. 2. That the same be paved and curbed in accordance with the specifications for the respective materials which may be selected and determined upon by the Mayor and Board of Council upon the receipt of bids, as set forth and prescribed by resolution of this Board, which specifications, however, may at the pleasure of the Council be changed from time to time by resolution.

Sec. 3. That the cost and expense of said original construction and improvement by paving and curbing aforesaid, shall be at the exclusive cost of the owner of the lots and parts of lots or lands fronting or abutting or bordering on the said street and parts of streets to be paved by original construction as above, and shall be apportioned by the City Engineer and Board of Council according to the number of front feet owned by the owners, respectively.

Any owner of the lots or grounds abutting or bordering the improvements desiring to settle in cash for the improvement assessed against them may, within thirty days after the adoption of the apportionment, pay the amount as assessed against them to the City Treasurer, who shall place the money in the Street Improvement Fund.

At the expiration of thirty days after the adoption of the apportionment the Treasurer shall report to the Council the amount of cash received and the Council shall then order the City Clerk to advertise Street Improvement Bonds for sale to cover the remainder, together with the expense attending the issue of said bonds, including advertisement, printing bonds, etc., said bonds to bear interest at the rate of six per cent. per annum, and when the bonds have been sold the money realized therefrom shall be placed in the Street Improvement Fund and an order drawn against said fund in favor of the Contractor for the entire amount due him, including interest at the rate of six per cent. per annum from the time the work was accepted by the City Council to the date of payment to him.

Sec. 4. The accepted bidder shall execute bond to the City with good and sufficient surety, to be approved by the Council for the faithful performance of said construction, and said contractor shall, within ten days after being notified to do so by the Board of Council, begin work under said contract; and shall complete the same as provided for in said contract and without delay, and when the work as provided for in said contract and in this ordinance is completed in accordance with the contract, the work shall be received by the said Council upon the receipt of a certificate from the City Engineer and Street Committee stating that the work has been done according to con-

tract, and said Council shall order payment for the same to the Contractor by the issue of orders upon the City Treasurer to pay same out of the Street Improvement Fund as herein provided.

Sec. 5. Within thirty days after the advertisement for sale of Street Improvement Bonds as provided herein, the Mayor of the City is hereby empowered and directed to issue bonds of this City in such sums as the Council may order, not exceeding, however, the contract price for said work, with interest due herein provided and all expenses attending the completion and issue of said bonds which may be redeemed by the City as follows:

One-fifth thereof at the end of two years from their date.

One-fifth thereof at the end of four years from their date.

One-fifth thereof at the end of six years from their date.

And said bonds shall bear interest from date thereof until paid at the rate of six per cent. per annum payable semi-annually, and the same and all interest thereon shall be payable at the Mt. Sterling National Bank, Mt. Sterling, Ky.

Said bonds when issued shall be signed by the Mayor and City Clerk of the Council with the municipal seal attached; and shall be sold and disposed of by the Mayor, City Clerk and Treasurer then in office for the most advantageous price, in no event, however, to be less than par with accrued interest at the time of sale.

The bonds shall be in the form and substance as hereinafter prescribed and numbered consecutively from number one to the number required, and shall be in denomination of five hundred (\$500.00) dollars each, except that five may be for a smaller amount than said sum to cover any remaining fractional parts of five hundred dollars said work may cost with appropriate interest coupons attached. They shall all bear interest and date the day that the work was accepted by the City Council and until negotiated shall be left in the custody of the Treasurer who shall be liable for the safe keeping thereof on his official bond. Said bonds shall not be issued upon the faith and credit of the City of Mt. Sterling for the payment thereof, but the faith and credit shall be pledged for the payment of the sum realized upon the apportionment against the property for the cost of the paving and curbing of said streets as in this ordinance provided, only after the same shall have been collected and paid to the Treasurer, as in this ordinance provided, and said bonds shall be payable and redeemable not on the faith and credit of the city but out of and secured by a lien for the assessment to be made and apportioned by said city against said lots and parts of lots or lands abutting upon streets and parts of streets in said ordinance ordered to be paved and curbed. The principal sum of this bond shall be payable at maturity upon presentation and surrender of the same at said Mt. Sterling National Bank, Mt. Sterling, Kentucky.

Cause for Alarm

Loss of appetite or distress after eating—a symptom that should not be disregarded.

It is not what you eat but what you digest and assimilate that does you good. Some of the strongest, healthiest people are moderate eaters. Nothing will cause more trouble than a disordered stomach, and many people contract serious maladies through disregard or abuse of the stomach.

We urge all who suffer from indigestion, or dyspepsia, to try Rexall Dyspepsia Tablets with the understanding that we will refund the money paid us without question or formality, if after use you are not perfectly satisfied with results.

You can buy Rexall Dyspepsia Tablets in this community only at our store:

MAKING FRIENDS WITH MAMMON.

Genesis 33:1-15—April 20.

"Be ye kind one to another, tender-hearted, forgiving each other, even as God also in Christ forgave you."—Ephesians 4:32. R. V.

In a previous lesson we saw that Jacob left his earthly inheritance to Esau, claiming only the great Abrahamic Promise. That Promise was in respect to the future, and was purely of faith. All Jacob's course in life was governed by that Promise. If the Seed of Blessing was to come through him, then he must have children. Hence he married and reared a goodly family, regarding them as identified with himself in the Promise. His accumulation of flocks and herds was along the same line.

About twenty years after Jacob had left home, he returned, under the Lord's guidance, with his flocks, herds and servants, to the land of his father. Naturally, he felt a timidity respecting Esau, and prayed to the Lord upon the subject, reminding Him of the Promise, in which he trusted. Then he sent word to Esau that he was coming. Next he prepared a gift of considerable value for those times—sheep, goats, camels, cattle and asses.

This gift represented long years of toil on Jacob's part. These earthly things, however, Jacob valued as nothing compared with the great Abrahamic Covenant. He could give this goodly portion of earthly mammon to purchase Esau's good will, although he was under no obligations to his brother. He had purchased the first-born's portion, which included the major portion of Isaac's worldly riches. Jacob had left these in Esau's hands. The latter might suspect that Jacob was coming to claim his inheritance.

Had Jacob laid no claim to the estate, Esau would have judged him according to his own standards, and mistrusted that at an opportune moment Jacob would attack him. Thus a feud would have been established between the two families. This would have interfered with Jacob's hopes in connection with the Covenant.

Jacob insisted upon Esau's acceptance of the present. It would stand as a pledge of good faith between them. Esau would all the more willingly see Jacob's prosperity; for he realized that he had gotten the better of his brother, first by getting the patrimony, and secondly, by receiving so rich a present. Evidently Jacob's course was wise. He still had plenty, and God could give him more. His chief concern would be the Abrahamic Promise, the fulfillment of which lay beyond the present life.

The Lesson of Generosity.

One lesson which we as Christians may draw from Jacob's course is that of generosity toward the world—those who have no interest in Heavenly promises. As Jacob was willing to set aside all earthly rights and privileges in favor of the Abrahamic Promise, so the Spiritual Heirs should do likewise.

As Jacob left his father's house, leaving all to his brother without contention, trusting only to the Heavenly Promise, so must we Spiritual Israelites forsake all earthly hopes, to obtain joint-heirship with Christ in the Messianic Kingdom. As Jacob gladly gave presents to Esau for the sake of peace in carrying out God's arrangements under this Promise, so we as Christians should willingly give to our partners in life, our neighbors, friends and brethren, the larger share of earth's good things, if thereby we may forward the Lord's Cause in connection with the Abrahamic Promise, in which we trust.

Mankind have their hearts set upon earthly good things—they know nothing higher. Christians, on the contrary, appreciate Heavenly things, esteeming earthly things as unworthy of comparison. We, like St. Paul, esteem all earthly things but loss and dross that we may win Christ—that we may win joint-heirship with Jesus in the great blessing of God by becoming members of the Spiritual Seed of Abraham, that we may participate in the glorious work of blessing all the families of the earth.

Finally, Our Golden Text.

Our Golden Text seems at first not closely related to the lesson. Nevertheless, there is a relationship. It is this: Whoever cultivates the spirit of generosity and benevolence toward others in the interests of the Lord's Cause will thereby make character. Generosity in dealing with our

enemies and with the world will gradually make us more generous with all—especially with the Lord's family, to which our text refers.

The Church of this Gospel Age is in the School of Christ, to be prepared for Divine service, in association with the Redeemer in His Messianic Reign. The lessons in this School are the graces of the Spirit. To whatever extent we attain these graces, to that extent we shall be prepared for a place in the Kingdom.

APPARENTLY PROVES CASE.

"If wars perfect the races, then the most belligerent nations should be the handsomest. But such is not the case. In fact, the contrary is true. The English are most certainly one of the handsomest people on earth. They are also the least warlike, since they alone, of all the European nations, have abolished military service."—War, by J. Where was the fly born? In manure and filth.

Where does the fly live? In all kind of filth and he carries filth on his feet and wings.

Where does the fly go when he leaves the manure pile and the spittoon? He goes into the kitchen, the dining room and the store.

What does he do there? He walks on the bread, fruit and vegetables; he wipes his feet on the butter and he bathes in the milk.

Does the fly visit patients sick with consumption, typhoid fever and cholera infantum? He does, and he may call on you next, carrying the infection of these diseases.

What diseases does the fly carry? Typhoid fever, consumption, diarrheal diseases, diphtheria, scarlet fever, and, in fact, any communicable disease. "Swat the Fly."

Quarantine To Be Lifted.

At a meeting of the Kentucky State Livestock Board held in Louisville last week, Dr. A. J. Payne, United States Inspector, notified the sheep men in Kentucky that the quarantine against Kentucky sheep would be abandoned and lifted May 1. This quarantine has been in operation for two years and six months and during that period it has been impossible to ship sheep from Kentucky without first having them inspected for scabies. After this long fight by the State Board and the Agricultural Department it is believed that the disease has been practically eliminated.

PRESCRIPTION

For a Long Life.

This is the prescription for a long life given by an old gentleman in Connecticut, who is ninety-nine years old and still well and cheerful, "Live temperately, be slow to anger, don't worry, take plenty of exercise in the fresh air, and, above all, keep cheerful."

Should the system get run down—digestive organs weak—the blood thin and sluggish, take Vinol, which is a delicious combination of the medicine—body-building properties of cod's livers, with the useless grease eliminated and tonic iron added. We regard Vinol as one of the greatest body-builders and strength-creators in the world for aged people.

Mrs. Mary Ivey, of Columbus, Ga., says: "If people only knew the good Vinol does old people, you would be unable to supply the demand; it is the finest tonic and strength-creator I ever used."

We wish every feeble old person in this vicinity would try Vinol on our agreement to return their money if it fails to give satisfaction.

Treating the Appendix.

An Indiana physician claims to have devised a system of treating appendicitis which, after fifteen years of experience and observation, has convinced him that there is no longer any necessity for operative measures for this rather common ailment.

The promulgator of the new method of dealing with the troublesome vermiform appendix is Dr. M. H. Thomas, of Huntington. According to a dispatch from that place the doctor is firmly of the opinion that the appendix is placed in the human economy to serve a definite purpose; that its removal is unwarranted when there is other treatment that will correct the disease, and "that the dangers attending operations and the bad results following operation at the hands of reckless and incompetent surgeons overbalance the good they may do."

"Man is fearful and wonderfully made," and there are some parts of the intricate human machine for which no important use has been discovered. The vermiform appendix, for instance, has been regarded as a superfluity, a sort of fifth wheel in the corporeal make-up, good for nothing in particular, but exceedingly likely to get out of order and retard progress. Apparently many of those persons who have been separated from their appendices get along just as well without them—even better. But there are physicians

who believe that there are entirely too many operations for appendicitis.

It will be interesting to know the theory that Dr. Thomas has formed as to the usefulness of the appendix. He has announced his intention of making his remedy public and of making demonstrations in Eastern hospitals. This would indicate that he means well and has no concealments and no intention of getting a patent on his system of treatment. It may be that he has made an important discovery by which a refractory appendix may be induced to behave and thereby live out its appointed time in peace with itself and its proprietor. In which event he is undoubtedly a public benefactor.—Courier Journal.

TROTTING HORSE NEWS.

Peter L. Hensley, of this city, has a coking good colt at the Fair Grounds by J. Malcolm Forbes, 2:08, dam by Red Wilkes, that is a very fine individual and possesses plenty speed. The colt will be carefully worked and will be raced as soon as ready.

Pennsylvania parties purchased the past week the pacing gelding, Red Pepper, by Haxhall, dam by Bob Pepper, from F. P. Bean for \$200. This gelding is very fast, can show a 2-minute clip, but wears the straps. He will probably be raced on the Pennsylvania circuit. The same parties also purchased a bay pacing horse by Searchlight, 2:03, from John D. Greenwade at \$200. This horse possesses good speed, and should make a fast one if trained.

The demand for the services of the great young stallion, Peter Montgomery, is increasing and applications for service are coming in rapidly from a number of owners of good mares.

Several of the highest bred mares in Fayette county have been bred to this horse with more to follow. The yearlings by Peter Montgomery now in training are showing much speed and it is believed that several of them will enter the charmed circle this year.

The weather was very good last week and the track at the Fair Grounds was in fine shape. Several of the horses in the various stables were brushed along and it will only be a few days, or until the weather warms up, until workouts will be regular on Mondays, Tuesdays, Thursdays and Fridays. The horses at the local track are all healthy and in good shape, and there will be great sport at the track by May 1.

The pacer, Del Rey, now in the stable of Walter Cox, at Dover, New Hampshire, is the top heavy favorite for the Chamber of Commerce Pacing Class this year. This horse has been a mile in 2:03, and the rail-birds say he is faster and better than ever. He has never turned for the word, but when he does he will be well mannered and fitted to race for a Queen's ransom.

H. B. VanEvera has added to his stable a nice going colt owned by Titus & Synder. We haven't the colt's breeding at hand, but it is an excellent individual and possesses a good kick, and should learn to go very fast.

It is likely that J. R. Magowan will campaign his good mare, Neva Todd, again this year. She has been roaded all winter, is as hard as nails and should be a very fast mare in her class. She is again in the stable of Richard Curtis and may probably be started at the Mt. Sterling Fair in the 2:17 trot.

Warren A. Bacon, of Washington Court-house, Ohio, sold this week to a Canadian buyer, the fast three-year-old pacing stallion, Ed Locanda, for \$600. This colt was sired by Locanda, 2:02, and is one of the fastest and gamest pacers we know of.

E. R. Little, of this county, sustained quite a loss last week when his brood mare, Orgena, died suddenly at the farm. This mare was sired by Oro Wilkes, dam by Guy Wilkes, was quite a fast trotter, and was heavy in foal. She was valued at \$700.—Blue Grass Journal.

Handy Corn Sheller.

An Ontario, Canada, farmer made himself an effective corn sheller out of a few pieces of wood lying around, and he has been generous enough to tell how it was made. He took a block of wood and cut a sloping notch from one end. To the other end of the block he pivoted a lever and studded the notched surface of the block and the inner side of the lever with nails. He mounted the contrivance on three legs. On the front leg he mounted a bracket, on which a box sits. To shell an ear of corn the latter is placed against the spiked surface of the notched block. The lever is then moved across the corn several times and the two sets of spikes scrape all the kernels from the cob in less than no time. The kernels drop into the box and the work is over.

Our time will be devoted exclusively to the tin and plumbing business.

Lameness

Sloan's Liniment is a quick and reliable remedy for lameness in horses and other farm animals.

"Sloan's Liniment surpasses anything on earth for lameness in horses and other horse ailments. I would not sleep without it in my stable."—MARTIN DOYLE, 425 West 19th St., New York City.

Good for Swelling and Abscesses.
Mr. H. M. Grimes, of Lawrence, Kan., R. F. D., No. 3, writes: "I had a mare with an abscess on her neck and one 50c bottle of Sloan's Liniment entirely cured her. I keep it all the time for galls and small swellings and for everything about the stock."

SLOAN'S LINIMENT

is a quick and safe remedy for hog cholera.

Governor of Georgia uses Sloan's Liniment for Hog Cholera.
I heard Gov. Brown (who is quite a farmer) say that he had never lost a hog from cholera and that his remedy always was a tablespoonful of Sloan's Liniment in a gallon of slops, decreasing the dose as the animal improved. Last month Gov. Brown and myself were at the Agricultural College building and in the discussion of the ravages of the disease, Gov. Brown gave the remedy named as unfailing."
